High-Quality Pressed Brick Making Machines

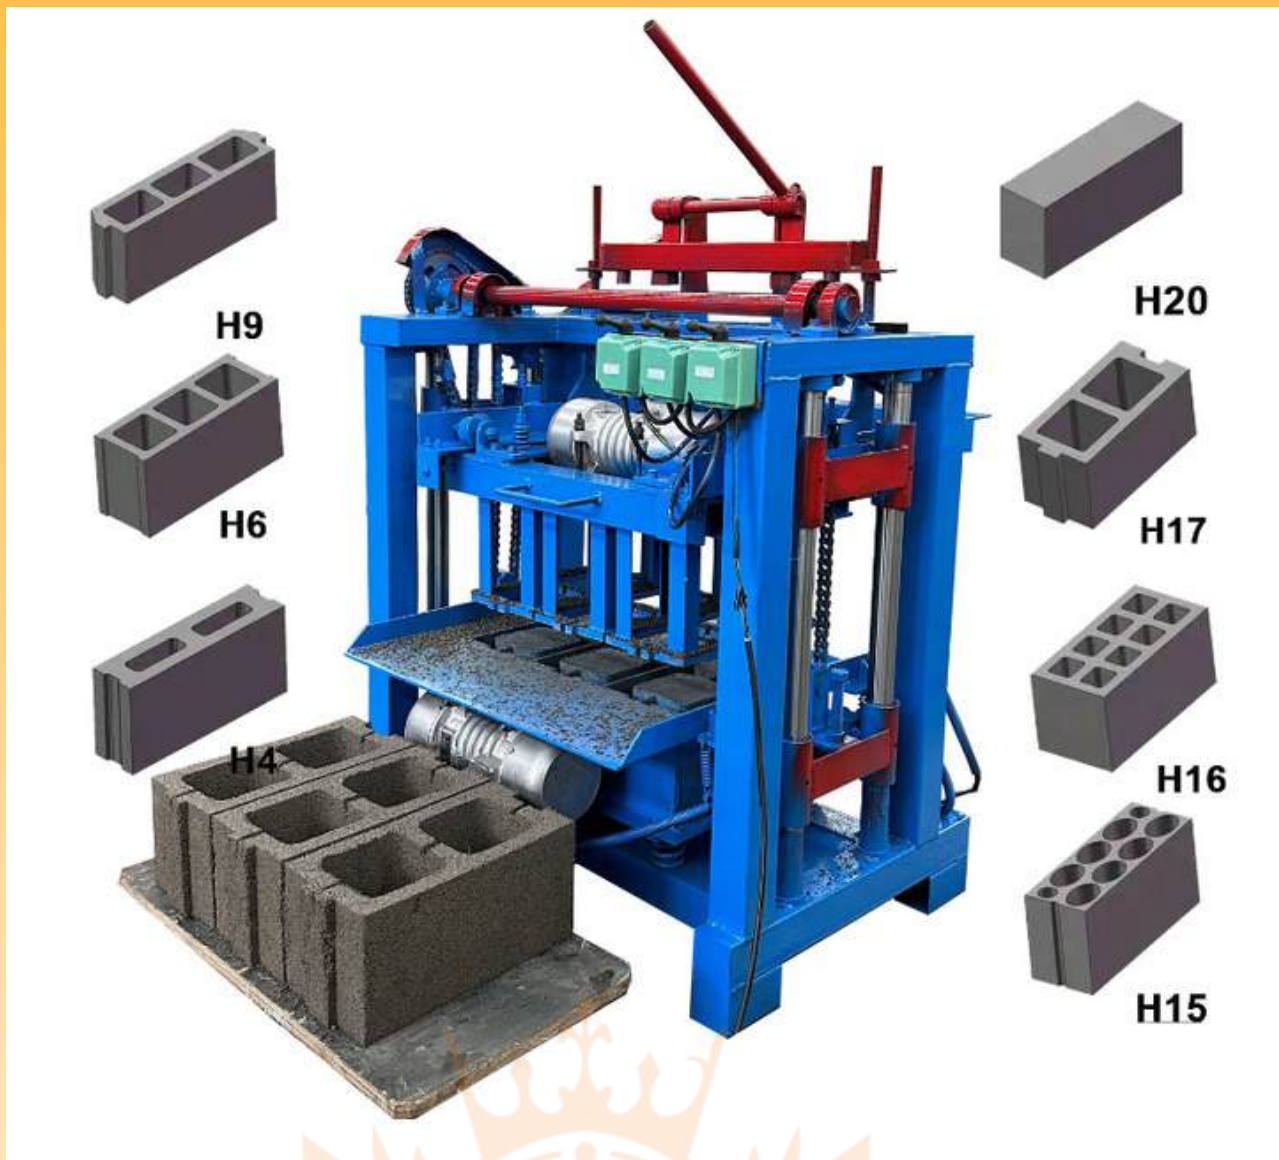

easy operation

semi-automatic

a machine with multiple molds

**QT4-35 bricks making machine Block Making
Machine Semi Automatic Brick Make Machine**

RIDERS GROUP

The main lifting method of 4-35A brick making machine is chain lifting, and the brick forming method is vibration molding, which belongs to the semi-automatic cement brick making machine. The machine has the advantages of low price and simple operation, and is favored by many users. The 4-35 machine is formed in 35 seconds with a brick-making time, and it can hit four bricks of 390*190*200 size at a time. The transmission mode of the machine is that the reducer chain is lifted and formed by mold vibration.
