R.Riders Group Ltd. provides full-service support for industrial machinery, including sourcing, buying, delivery, installation, warranty, and training.

We help new entrepreneurs and businesses achieve their Goals with complete solutions.

High-Quality Commercial Laddu Making Machine

The new mini HJ-001 is a whole new type of encrusting machine : the HJ-001 is the first table top encruster. Its ultra-compact size and a very simple operation allow a convenient non-industrial use for live food production in a store, bakery shop or home. It is divided into two series of AB.

RIDERS GROUP

Brand Name	HJ	Model Number	HJ-001A/HJ001B
Voltage	220V	Power(W)	0.85kw
Weight	150kg/130kg	Dimension(L*W*H)	1050*920*1300mm/1050*920*1000mm
Certification	CE	Warranty	12 months
Machine name	laddu Rasgulla	Machine weight	150kg/130kg
Capacity	30-60pcs/min	Product weight	10-50g/pc

HJ-001A :

Type A is one flat and two buckets. The filling effect for dry, loose and wuren is more obvious. Type A with different filling tubes can produce single and double stuffing products. The skin, filling size and cutting speed can be adjusted without pole. Different cutting tools can be used as olive, water drop and round strip products, and different molds can be replaced to produce a variety of special-shaped products, such as mochi, kubba, coxinha, panda, croquette, shape biscuits etc.

HJ-001B :

Type B is a flat bucket stuffing machine, which can make round, long strip and all kinds of foreign products. The skin, filling size and cutting speed can be adjusted without pole.

Main Features:

- 1) 304 Stainless steel structure
- 2) Food standard parts
- 3) Small size, easy to operate, install and clean
- 4) Safety cover, emergency stop switch for safety
- 5) Multifunction: can make different food by changing molds easily
- 6) Food weight, size and ratio can adjust as required
- 7) Instruction book, video and recipe

Name: PLC Touch Screen

Brand: DELTA/TECO

Adopting Taiwan famous brand Delta or Teco PLC touch screen control system, which makes it much simpler to save and transfer according to different modes. Compact size with delicate design, user-friendly interface, simple operation, production performance is stable, reliable and safe.

Cutter:

There is one adjustable spring screw for each blade of the cutter, and contacting part of blades in operation is in on line, which helps avoid friction and makes it durable. Swing cutting way of the cutter solves the problem of materials stacking and makes the products size and weight consistent.

Molds:

We can change different molds to produce different products according to your needs.

One flat and two buckets of 001A:

Type A with different filling tubes can produce single and double stuffing products.

A flat bucket stuffing machine of 001B:

The mixing structure of flat bucket stuffing machine can stir the dough material evenly and make it tough.
