Soap Making Machine

The stripping machine is to knead and squeeze the stirred and ground saponin flakes, short strips, soap powder and other soap making raw materials into continuous strips of soap body. The machine adopts a single single spiral out of the bar, driven by frequency control motor, speed range is wide, can be well matched out of the bar. The outlet is equipped with a temperature-controlled electric heating device to ensure that the soap body has internal strength and good appearance quality.
