R.Riders Group Ltd. provides full-service support for industrial machinery, including sourcing, buying, delivery, installation, warranty, and training.

We help new entrepreneurs and businesses achieve their Goals with complete solutions.

## Electric Automatic Oil Press Machine

Effective Squeeze & Extract Organic Oil: Remove the hard shell of the nut yet maintains the food's rich nutritional such as folate and vitamin E.

Hot and Cold Pressing: Hot press extraction makes naturally pure & aromatic oil that retains the food's nutritional value, easy to extract oil up to 60% which depends on the oil seed.

Multiple Use: Great for sunflower seed, dried coconut, flax seed, peanut, pumpkin seed, quinoa nut, walnut kernel, sesame seed, castor.

Easy to operate: Automatic oil press machine is made of 304 food grade stainless steel, easy to use; just plug in, feed the seeds into the hopper, then press start, it would automatically process.

## Important tips before making order

Before placing your order, please make sure to confirm the type of plug required for your device. Refer to the diagram on the left to familiarize yourself with the abbreviations for different plugs, and select accordingly when placing your order. Thank you!

About this item

- **Effective Squeezing & Extraction:** The machine is capable of removing the hard shell of nuts while preserving important nutrients such as folate and vitamin E, which are beneficial for health.
- **Hot and Cold Pressing Methods:** Hot Pressing can produce a naturally pure and aromatic oil that retains the food's nutritional value. It is also more efficient in terms of yield, with the ability to extract up to 60% of the oil, depending on the type of seed. Cold Pressing (although not explicitly mentioned, it's often the counterpart to hot pressing) typically involves lower temperatures and may be preferred for oils where heat-sensitive nutrients and flavors need to be preserved.
- **Ease of Use:** The machine has a simple ON-OFF power button switch. It has a maximum input power, allowing for efficient processing. The oil collection cup has a capacity of 800ml, which should be sufficient for most home or small-scale needs.
- **Multiple Uses:** The machine is versatile and can process a variety of seeds and nuts, including sunflower seeds, dried coconut, flaxseed, peanuts, pumpkin seeds, quinoa, walnut kernels, sesame seeds, and castor beans.
- **Quality and Warranty:** The machine is constructed from 304 food-grade stainless steel, ensuring durability and safety. It is easy to operate; simply plug it in, add the seeds to the hopper, and start the machine.

## Electric Oil Press

YUEWO electric oil press, gentle cold pressing process for small and large seeds, kernels, nuts, fresh oil daily.

- *Continuous Pressing*
- *Strong AC motor and gearkit*
- *Produce your cold-pressed oil*
- *Remain vitamins and nutrients in oil*

Press squeeze button

## Dimension

# RIDERS Star Group Ltd.

— Rapid heating  
Feeding oil for 10 seconds

304 squeezer —  
High oil yield

— Quick installation  
easy to use

— Full copper core coil  
Alloy transmission gear  
Continuous pressing  
without pressure

## Specification

Oil Press Machine

Size:

460x180x310mm

Power: 610W

N.W: 11KG

Output: 3~5kg/hou

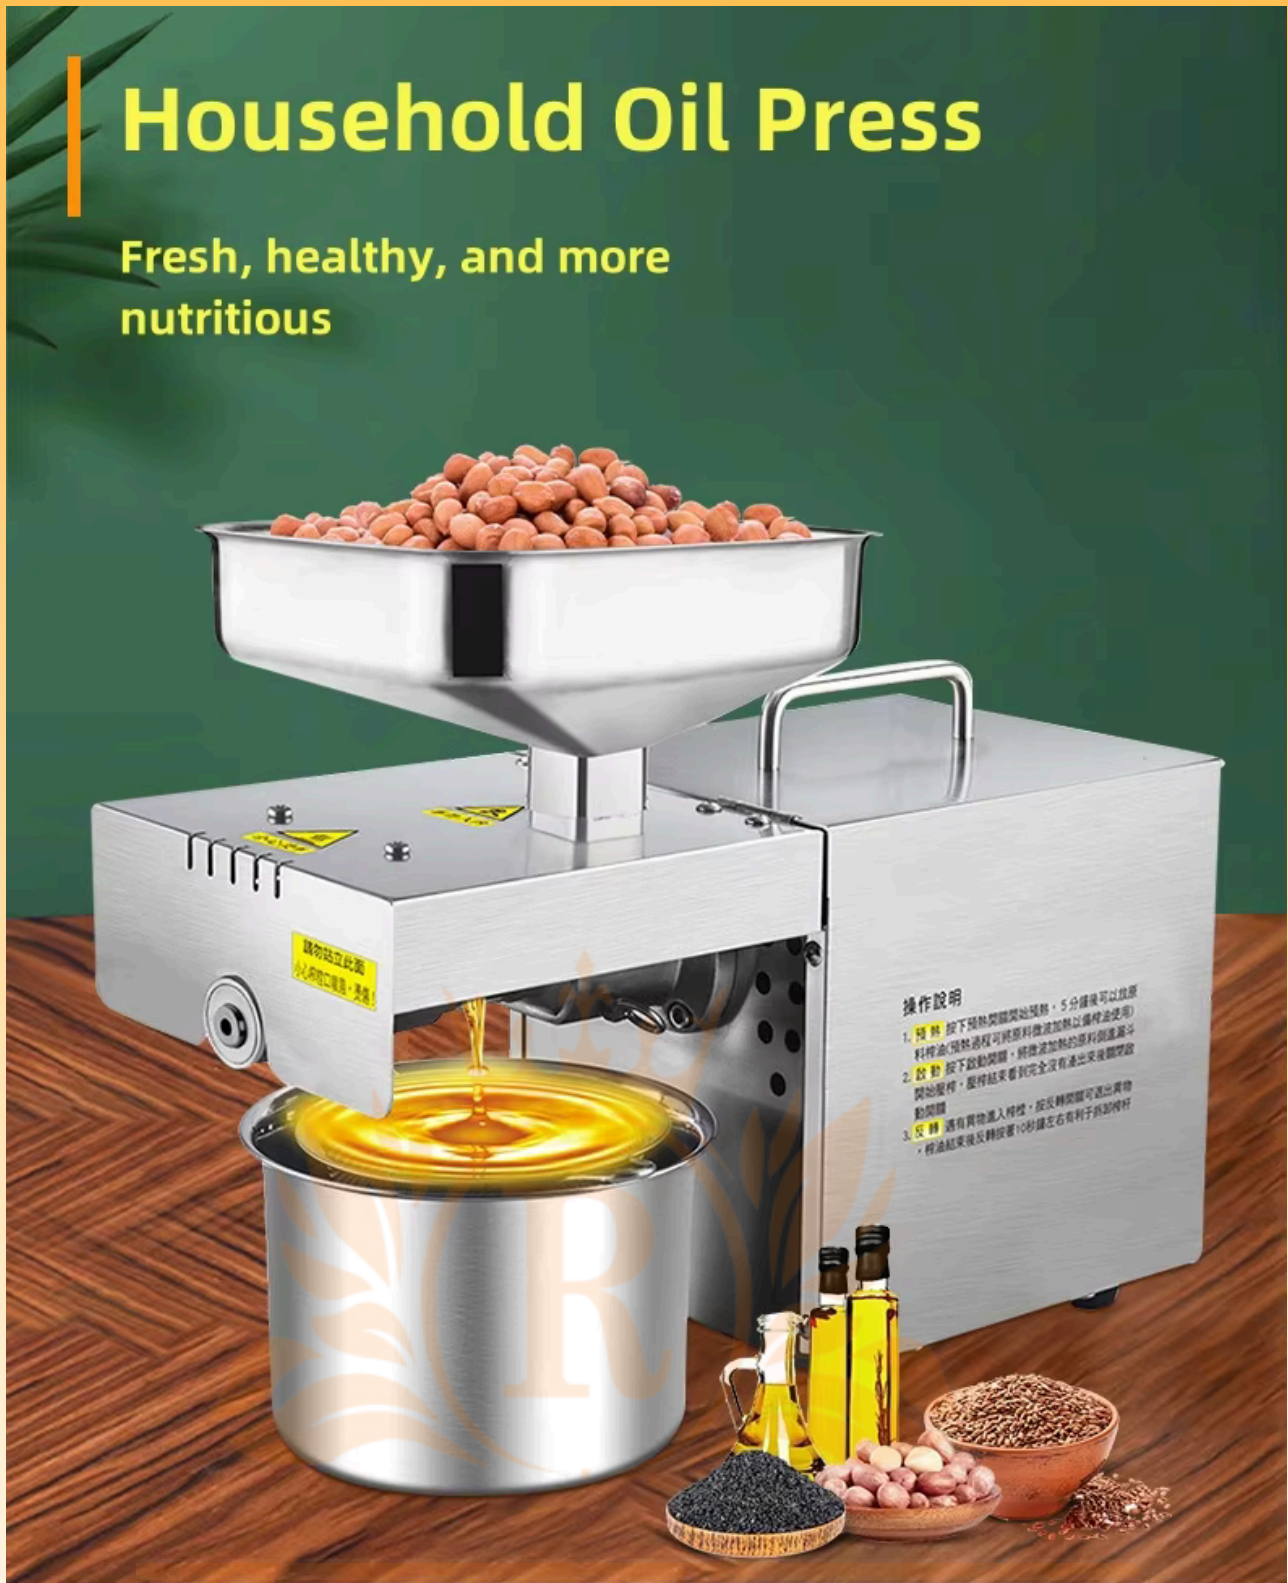

RIDERS GROUP

## Household Oil Press

Fresh, healthy, and more nutritious

RIDERS GROUP

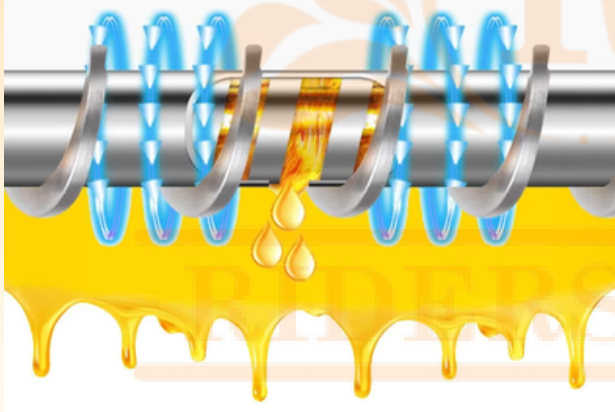

## Dual heat dissipation vents

Good heat dissipation, protects core components, and works for long periods of time

420 stainless steel press rod  
Durable and sturdy

Unique squeezing frame that can be stir fried and pressed at the same time

Superconducting aluminum material  
Better thermal conductivity

Made of high-quality 304 stainless steel  
More sturdy and durable

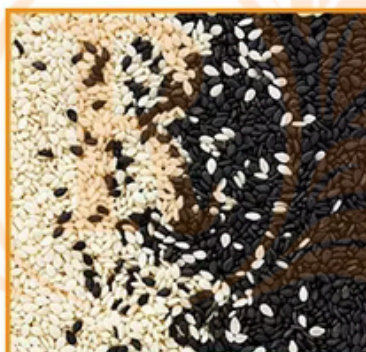

Forged through multiple processes  
Durable and wear-resistant

1. Independently developed DC motor, three-level all steel reduction gear;
2. Powerful, with an idle power of only 10W and a maximum crushing power of up to 400W;
3. 600W high-power heater;
4. New patented barrel press rod, easy to install, with clear and one-time oil output;
5. Small size, light weight, saving shipping costs for export;
6. Exclusive research and development of a third-generation oil press dedicated temperature controller;
7. Laser marking pattern, high-end and atmospheric;
